OPERATIONS

1. GENERAL. The 3d Marine Division reinforced continued combat operations against NVA and Viet Cong Forces in Quang Tri Province. Enemy activity in the Division area of operations continued at a relatively high level with increased artillery, mortar and rocket attacks in the eastern DMZ area as well as Khe Sanh.

BIT 2/4, Special Landing Force "A", remained under operational control of the Division in operations NAPOLEON/SALINE throughout the month.

BIT 3/1, Special Landing Force "B" also remained under 3d Marine Division control participating in Operation LANCASTER II.

In NAPOLEON/SALINE, a large enemy build up near the Cua Viet was detected at the end of the month and the battle of Dong Ha was initiated on the 29th.

In the SCOTLAND AO during the month the enemy continued its attacks by fire on the Khe Sanh Combat Base, outposts and maneuvering units in operations PEGASUS and SCOTLAND II. By the end of the month the 26th Marines and the 1st Battalion, 9th Marines were withdrawn from LANDTHIAND and replaced by the 1st Marines and the 3d Battalion, 4th Marines.

2. Operation NAPOLEON/SALINE. Operation NAPOLEON/SALINE continued through the month. 3d Marines units and the Naval Port facility at Cua Viet received sporadic incoming artillery fire during the month. Ground contact was light throughout the AO until 27 April. At 272215H G/2/4 made contact with an unknown size enemy force in the vicinity of YD 249721. Results of the contact were: Friendly: 1 L, 10 WIA (E), 12 WIA (M); Enemy: 8 NVA/KIA, 2 IWC. On 30 April, the enemy launched a determined effort to interdict traffic on the Cua Viet River. At 300030H and 300040H river patrol craft were fired on from the vicinity of Dai Do Village (GC YD 2562). At first light H/2/4 supported by tanks made heavy contact with an NVA company in the same area. B/1/3 reinforced H/2/4. By 301330H F/2/4 was committed and all three units were heavily engaged with an estimated NVA battalion. The enemy supported with artillery, mortar and RR fire. The Cua Viet river was temporarily closed to traffic. The enemy broke contact at 1840H, but appeared determined to hold his ground. Result: Friendly: 12 KIA; 92 WIA (E); Enemy: 89 NVA/KIA, CSWC.

3. Operation RICE. At 180300H April, Operation RICE commenced with HqBn, 3d Marine Division as the controlling Headquarters and with the mission of denying the enemy access to food producing areas and preventing ground, rocket and artillery attacks in the Quang Tri area. At 250800H 26th Marines relieved HqBn as the controlling Headquarters. Ground contact was light throughout the AO until 30 April, when at 0340H the CP of the 3d Squadron, 5th Armored Cavalry came under heavy ground and mortar attacks by 2 VC companies. The attack ceased at 0525H, and resulted in: Friendly: 11 KIA, 15 WIA (E), 31 WIA (M). Enemy: 11 VC/KIA.

Results of Operation RICE through 30 April were:

(1) Friendly	(2) Enemy
USM USA	13 VC/KIA
1 WIA (M)	
26 WIA (E/L)	
31 WIA (M)	

4. Operation KENTUCKY. The 9th Marines with three infantry battalions continued to defend Leatherneck Square and to conduct offensive operations to interdict enemy infiltration into the eastern DMZ area. The enemy continued to harass the fixed DYMARKER positions with sporadic artillery, rocket and mortar fire. Mid-month enemy activity in the Leatherneck area increased markedly with the incursion of major NV formations into the area between routes 1 and 561. During the month, the 3d Battalion, 4th Marines displaced to Khe Sanh and the 1st Battalion, 9th Marines from Khe Sanh replaced 3/4 at Cam Lo and O-2 positions. On the 29th, Task Force Robbie with D/1/9 moved from C-3 toward An Binh to assist ARV units along Rt 1. Contact was established with a dug-in enemy force at Cam Vu. In a sharp engagement which lasted from 1600 to 2350H, 26 NVA were killed and casualties were 11 KIA, 16 WIA (E) and 6 WIA (M). Four M48A3 tanks were damaged. This action in Cam Vu was the initial contact of what was to become the battle of Dong Ha. Enemy pressure in the form of artillery, rocket and mortar attacks on Con Thien, and G-2 increased during the last week of the month, countered by air-strikes and counter-battery artillery fire.

5. LANCASTER II. The 4th Marines with three battalions continued to provide security for Route 9, Ca Lu Combat Base, Thon Son Lam, the Rockpile and Camp Carroll. Action during the month was characterized by several reconnaissance sightings, increased NV presence on Route 9 and an increased enemy attacks by fire on Marine positions in the area. On 19 April an NVA ambush on Route 9 resulted in 6 USMC killed and 37 wounded, of whom 27 were medically evacuated. On the 26th a group of 51 NVA bodies previously killed in LANCAST were discovered near Thon Son Lam. Incoming artillery increased in the latter part of the month reaching a peak of 40-50 rounds on 27 April which resulted in the destruction of one TAPDS bladder.

6. Operation PEGASUS. Commencing 1 April, the 1st Cavalry Division (Airmobile) with three organic brigades and reinforced with the 1st Marine Regiment (Rein) and the 26th Marine Regiment (Rein), a total of 9 Cavalry and 7 USMC battalions in coordination with an ARVN Airborne Task Force of 3 Airborne Battalions seized the high ground to the east, south and west of Khe Sanh Combat Base (KSCB). In a series of attacks starting from Ca Lu the 1st Marines cleared Highway 9 from Ca Lu to a point just east of KSCB. One Air Cavalry Brigade advanced on the south side of Route 9 setting up artillery support bases enroute. Commencing on the 1st, the 1st Battalion 9th Marines seized hill 71 and hill 7 south of KSCB repelling heavy enemy counterattacks on the following morning. 1/9 was relieved in position on the 7th by elements of the 1st Brigade and on the 7th commenced attack to the west along the hill 552 hill 689 and hill 680 with the ARVN Airborne Task Force between the road and Route 9 and an Air Cavalry brigade on the north side of the road. The remaining battalions of the 26th AODI attacked the high ground northwest of KSCB clearing the enemy from that sector. 3/26 seized hill 881 north of KSCB. Operation PEGASUS was terminated on the morning of 3 April. The 1st Air Cavalry less the 2d Brigade, continued to move on to the coastal plains and the 26th Marines prepared for deployment from Khe Sanh to the eastern DMZ.

7. Operation SCOTLAND II. On 15 April, following operation
 WACASTS, Task Force Glick comprised of the 26th Marines with
 four infantry battalions; the 1st Marines with three infantry
 battalions and the 2nd Brigade, 1st Air Cavalry Division with
 two battalions, commenced offensive operations to clear the
 the Sanh area of regular NVA forces. Large quantities of
 enemy ammunition and equipment were discovered in the many
 bunkers uncovered to the west and northwest of the combat base.
 contacts were made southwest of the combat base
 on the 16th and 22nd with well dug-in and camouflaged V units
 of company size. Smaller contacts were made to the east and
 northwest of the combat base. During the operation the 1st
 Marines assumed the defense of the the Sanh Combat Base and
 the 26th Marines with its infantry and artillery battalions
 moved to the eastern DMZ area.

COMBAT AIR SUPPORT
APRIL 19681. Significant Events

a. During this period, fixed-wing fighter and attack aircraft flew a total of 5,214 sorties delivering 10,182-tons of ordnance in support of the Third Marine Division in their area of operations. Helicopters transported 6,684 passengers and 1,421-tons of cargo.

b. Of the above totals, 2,862 fixed-wing sorties delivered 5,280-tons of ordnance on selected targets in the Dong Ha and demilitarized zone area in support of Operations KENTUCKY, LANCASTER II, NAPOLEON/SALINE, CHARLTON, and RICE. Rotary-wing aircraft in this same area transported 4,350 passengers and 689-tons of cargo in support of these operations.

c. Operations SCOTLAND II and PEGASUS in the Khe Sanh area were supported by 2,352 fixed-wing fighter and attack sorties. These sorties delivered 4,362-tons of ordnance on selected targets within this area of operations. Helicopters lifted 2,334 passengers and 451-tons of cargo and supplies to Khe Sanh Combat Base. Two-hundred and eighty-one (281) tons of resupply material were delivered to the outlying combat outpost hill positions.

d. Twenty-four (24) B-52 ARC LIGHT aircraft struck four (4) targets with 600-tons of ordnance being expended in support of the Third Marine Division.

2. New Developments. None.

3. Problem Areas. None.

FIRE SUPPORT COORDINATION

1. GENERAL

a. Changes in Forces and Operational Area. During the period 1-15 April 1968, the 1st ACD had responsibility for the entire SCOTLAND AO and a significant portion of the LANCASTER AO for the conduct of Operation PEGASUS. Accordingly, the Arc Light, air and artillery fires in support of this operation are not included in the 3d Marine Division fire support operations for the reporting period.

b. Command Emphasis. In the employment of artillery, emphasis continues on the selection of the number of rounds and type fuze appropriate to the target under attack.

c. Reporting of Information. The Division Fire Support Information Center (FSIC) continued efforts to improve the curacy and timeliness in reporting fire support information. Improvement in the accuracy of fire support information is reflected in the increased use of the FSIC as the source of data to prepare reports for internal Division use and for reporting to higher headquarters.

d. Application of Data Processing Technique. FSIC revised the fire support information coding system and extensively revised the computer programs. Three weeks operation under the new system indicates that it meets FSCC requirements and is responsive to other using units. The fire support data collected by FSIC is now transmitted on magnetic tapes by AUTODIN from Phu Bai to FMFPAC DPI, via Force Logistics Command, Da Nang. This transmission of fire support data establishes a permanent magnetic tape file at FLC, Da Nang and FMFPAC.

2. SIGNIFICANT EVENTS

a. Munition expenditures

	JAN	FEB	MAR	APR	% CHANGE FROM PREVIOUS MONTH
...GHTS (TONS)	12,802	31,155	35,418	600	98.4
AIR (CAS/DAS/TPQ) (TONS)	7,505	13,394	14,110	10,182	35.1
ARTILLERY (RDS)	212,969	198,675	189,898	179,860	0.1
NGF (RDS)	22,057	17,248	55,075	49,862	10.5

b. Distribution of Fires.

(1) Missions distribution was 47% observed and 53% unobserved from all three weapons systems. The increased number of observed missions is indicative of the improved weather and

observation conditions during the reporting period.

(2) NGF and air support were predominantly allocated to the area in and north of the DMZ. Artillery support was fired south of the DMZ 78% of the time.

(3) H&I expenditures increased somewhat, in an effort to curtail infiltration and night movement of NVA forces. Of all artillery fires, more than half were H&I fires.

(4) Air missions south of the DMZ were about evenly distributed between TPQ or CAS/DAS. To the north the TPQ method of attack was utilized on 90% of the missions.

3. a. Data Processing. The limited core storage of the 1401 system and the poor flexibility of punch card records have required the processing of fire support data in a manner which have not met all FSIC requirements. The 3d Marine Division FSIC is investigating the possibility of support from the IBM 360 at Force Logistics Command, Da Nang if DPP #10 computer capability is insufficient for FSIC requirements.

b. Use of Visual Aids. A Fire Distribution Overlay prepared from the data produced by one of the computer programs is used to monitor the distribution of supporting arms fires. The overlay portrays the 1000 meter grids which received a specified minimum of fire support during the previous week. This overlay is used in daily fire support planning to ensure a proper distribution of fire support over the 3d Division operating area commensurate with the friendly and enemy situations. It also serves as a means of insuring adequate fire support along division and regimental boundaries. By isolating areas which do not receive a prescribed minimum of fire support, attention is focused on those areas to determine the reason for lack of fires and to be given closer scrutiny by observation agencies to determine if the area contains well camouflaged installations and fortifications.

PSYCHOLOGICAL OPERATIONS

1. During the month of April the Psychological Operations objectives were:

- a. Support Chieu Hoi Program
- b. Exploit VC/NVA battlefield losses
- c. Lower VC/NVA morale
- d. Show strength of GVN and Allied Forces
- e. Reduce mining and booby trap incidents
- f. Discredit VC/NVA
- g. Induce reporting VC activity
- h. Instill good health habits in the people
- i. Encourage support of the GVN

2. Psychological Operations supported all named operations and Regimental TAOR's. The DMZ and Recon Zones were also targeted regularly.

3. The following leaflets by type were delivered by aerial leaflet drops:

<u>Type</u>	<u>No. of Leaflets</u>
a. Chieu Hoi	12,643,000
b. NVA	10,795,000
c. Safe Conduct Passes	8,830,000
d. Rewards	1,800,000
e. Varied other themes	9,080,000

4. There were 27 hours of aerial broadcasts covering the same basic themes in the same general areas as the leaflet drops.

5. There were 225 hours and 33 minutes of ground broadcast in support of the 4th Marines, 9th Marines, 3d Marines and 26th Marines in Quang Tri Province. General themes were Vietnamese music, MEDCAP instructions, Surrender, Support GVN, Good Health, and Mine and General Weapons Reward.

9. There are 76 Kit Carson Scouts employed by the Division. 3d MarDiv scouts participated on 440 patrols this month and discovered 34 mines and booby traps.

10. The Quang Tri Armed Propaganda teams were deployed throughout the 3d Division AO with CAC units, 2/1, 1/1, 1/3, 9th Marines, and 1st Amtracs. The APT's are being used to conduct face to face propaganda, identify VC, and gather intelligence information.

11. The NVA Campaign was supported with NVA oriented leaflet drops throughout Quang Tri Province. In addition, rally and surrender appeals and Safe Conduct Passes were air dropped on known NVA locations. The 325C, 304th and the 803rd NVA Divisions were targeted heavily.

COMMUNICATIONS/ELECTRONICS

SIGNIFICANT EVENTS

1. Command Post Communications.

r. The Division communications center moved into a new concrete bunker in the command post area. This new facility not only provides more secure, adequate and efficient working space but is also more conveniently located to the C.P., thus improving speed of service.

b. Task Force Glick, later designated TF Hotel, was formed on 11 April and commanded by the ADC. Communications for this Task Force were initially provided by 26th Marines and later by the 1st Marines augmented by thirty (30) personnel from the 5th and 7th Comm Bn's, FMF. Initially the Khe Sanh to Camp Carroll and the Khe Sanh to Dong Ha 4 channel Radio Relay links were diverted to establish comm with the 1st Marines and the 2nd Bde 1st ACD. Additional equipment was flown in and all previous comm was restored by 15 April.

c. A new logistics concept calling for the closing of the LCU at Khe Sanh and the opening of a similar unit at LZ SPUD presents several communications problems. LZ SPUD is in a valley running North, South, whereas communications were desired West to Khe Sanh and East to Dong Ha. relay (1 -63) RQs established on Hill 304 and cable was laid between LZ SPUD and Ca Lu

2. New Equipment.

a. Quantity 70 Radio Sets AN/URC 62 received and issued on basis of 4 per Infantry Battalion and 30 for each Landing Battalion. Units are presently evaluating radio for use by forward air controllers in supporting fixed wing aircraft, reconnaissance insertion and ex-tensions, emergency air/ground communication and other uses.

b. MAC Telephone-Teletype contact assistance arrived 0300 arch and departed morning of 6 Apr. Team visited and at three Infantry Regimental Headquarters, one Artillery Headquarters, mental Antares Battalion, Tank Battalion and Communication Company, Headquarters Battalion. Personnel from infantry battalions also attended sessions while tea was present in infantry regiment es. Team performed in an enthusiastic manner and provided sound, timely and up-to-date information and assistance on teletype stations, telephone board equipments and associated test/tool equipment.

. YEMAN .

a. Personnel of the DYEMARKER Sensor/Surveillance School continued to operate NOD's on the Dong Ha Combat Base Perimeter with over 60 sightings of enemy personnel.

b. Action was taken to return excess DYEMARKER equipment, NOD's and /FP3-6's from 26th and 9th Marines to FLSG BRAVO 972 stock.

c. A study initiated to study inventory, capabilities and employment of surveillance equipment including DYEMARKER assets.

I. ~~Revolutionary~~ Development

a. The Revolutionary Development Program in Quang Tri Province made uneven progress during the month of April. ARVN security, the ~~sine qua~~ non to the program, was generally inadequate due to the location of battalions in close defense of Quang Tri City. Although a partial reoccupation of the RD areas by two ARVN battalions took place, their tendency to leave the field at night prevailed. General area security also decreased as the result of the departure of the 1st Cavalry Division (Airmobile). This move gave the enemy easier access to Base Area 101, the coastal lowlands and the fringes of the RD priority areas. Consequently, enemy aggressiveness and harassment of the RD Cadre increased. Furthermore, the revised 1968 RD plan is too timid in scope. Hence, because of the general lack of security for previously pacified hamlets, many of the hamlets improved upon by the 1967 program have lost ground without contest.

b. However, several worthwhile accomplishments have somewhat offset the security problem. Considerable security is provided by encouragingly dedicated and aggressive RF, PF and RD defense units. Indeed, in contrast to the ARVN battalions tasked with the defense of the RD Cadres, all RD teams stay in their hamlets at night. Another balancing factor in the security equation is the training of an additional 251 individuals (only 51 armed due to a lack of weapons) for hamlet self-defense groups. In addition to this improvement, there was a successful attack on the infrastructure during April. The RD Cadre captured 13 and killed 10 VC while suffering only 3 killed. The infrastructure is believed to be largely imported rather than indigenous to the RD areas, a fact in itself which describes a condition of some stability if not pacification. Complementing these gains, the RD Cadre held well organized town meetings and initiated numerous self-help projects despite the tactical situation. Lastly, three Truong Son (Montagnard) Cadre Groups were at work at Cam Lo at the end of April assisting the Brou refugees.

II. ~~Division~~ Civil Affairs/Civic Action

a. Agriculture. Demonstrations of a time-saving rice threshing machine has resulted in an impressive amount of interest throughout the province. In fact, District Chiefs have placed more orders for threshers than the number available. A total of 51 machines will be loaned by G-5 to farmers for the harvest season and, at the end of the harvest in June, the farmers will have the option of returning them or buying them for 3,500 \$VN each.

b. Scholarship Program. Ten students were paid a total of 21,200 \$VN. Plans are being formulated now to support approximately 40 students in Quang Tri for the next academic year.

c. Graves Removal. Quang Tri Combat Base. At the end of the month, the Quang Tri Province ~~Chief~~ finally issued the order to remove graves from 500 grave sites to permit the **expansion** of the southwestern portion of the perimeter.

d. TET Aggression Relief Project (TARP). Total 3d Marine Division contributions to TARP were 636,688 \$VN. Distribution on the following basis has been recommended: 150,000 \$VN to the 3d Marines; 282,000 \$VN to the 4th Marines and 204,688 to the 9th Marines. These monies will be spent on the purchase of rice for the Brou Refugees, various civic action projects at the Cam Lo Refugee Center and the presentation of money to two hamlets in the 3d Marines' AOR that were particularly hard hit during the TET aggression.

e. Personal Response Program. The 12th Division Personal Response Program Course was held on 22 April with twenty officers (four field grade) and twenty staff non-commissioned officers in attendance. In addition, eleven hours of instruction were given to 140 personnel in the field. One battalion was visited to help establish personal response instruction within the unit. Over 1,000 Personal Response Handbooks and other Personal Response materials were distributed to 30 battalions and regimental headquarters during the month.

f. MEDCAPS/DEN TCAPS. A total of 2,303 MEDCAPS and DEN TCAPS were conducted during April, with the majority of units having not yet reported their MEDCAPS and DEN APS.

g. Logistics. Transportation was provided through G-5 for GVN and CORDS refugee support. In addition, some civic action commodities were delivered to the Cam Lo Refugee Center from the Quang Tri Combat Base.

h. Civic Action Projects

(1) 422 Brou families at the Cam Lo Refugee Center (approximately half the total number of Brou) received cooking pots, eating bowls and utensils. The items were purchased through the FWMAF Civic Action Fund and were presented to the District Chief and Brou Chief by the Executive Officer of the 4th Marines.

(2) Two cleft palate operations on Vietnamese children were undertaken by D-Med at Dong Ha.

(3) A 450 pound examining table donated by the Point Loma Rotary Club of San Diego was presented in memory of General HOCHMUTH to the Quang Tri Provincial Hospital.

(4) A hamlet pig cooperative just south of the Dong Ha Combat Base received mess hall garbage daily.

(5) FLSG-B collected and presented scrap lumber and tin and salvaged cement to a hamlet nearby Dong Ha Combat Base.

(6) 12,390 \$VN from donations collected in the U.S. by different clubs and organizations were presented to the Quang Tri Protestant Orphanage.

(7) Lumber was donated for the reconstruction of a hamlet religious shrine south of the Dong Ha Combat Base.

i. Civil Affairs Estimate of the Situation. A comprehensive study of the Civil Affairs situation in Quang Tri Province was completed. This Estimate presents and analyzes courses of action available and recommends adoption of certain projects. It will serve as the basis for an overall Civic Action plan for units of the Division.

j. Cam Lo Refugee Water Project. Work continued on this critical project by the 11th Engineer Battalion. By the end of the month the water reservoir and system was almost completed.

k. Civic Action Employment Programs

(1) III MAF authorized the 3d Marine Division 150,000 pounds of "tactical rice" for 3rd Quarter, CY68. The 4th Marines plans to use this rice for payment to Brou for clearing fields of fire around Camp Carroll and brush along route #9.

(2) Several Vietnamese laundries have been operating to serve different 3d Marine Division bases; notably one is operated by refugees for Camp Carroll.

(3) Commodities were issued to refugees for brush clearing around Camp Carroll and Route #9.

DIVISION CHAPLAIN

NARRATIVE SUMMARY

The 3d Dental Company provides dental support throughout the TAOR of Third Marine Division, including several support elements. Relocations of major units within the TAOR has resulted in closure of several dental facilities and establishment of new clinics. New fixed facilities will be constructed at Cam Lo, 3d Med Battalion, Da Nang (Quang Tri), Camp Carroll, and an undetermined site west of Dong Ha. A centralized preventive dentistry unit is being established at the Division CP, Dong Ha. A similar facility will be included in the Division Clinic at Quang Tri. Complete prosthetics care is available in the clinic at Delta Medical Company and Quang Tri. The oral surgeon at Alpha Medical Company provides care for maxillofacial wound cases as well as elective oral surgical cases among Free Forces personnel and selected Vietnamese Civilians. Surgical correction of cleft lip and cleft palate cases among Vietnamese children continues to be a significant contribution to the Civic Action program. All company personnel are available to provide emergency assistance in the care of mass casualties. Significant assistance is provided Graves Registration in the identification of the dead.

Appendix 6 (Terrain and Weather Data) to Annex B (Intelligence) to
Operation Order

This is the _____ of _____
monthly precipitation for April and May is three inches occurring during
an average of 10 days of rain in each month. Thunderstorms occur during
an average of 5 days in April and increase to an average of 1 day in May.

Cloud cover averages 60% but 20 or more days per month generally
favorable for low level air operations (ceilings 2,000 feet, visibility
3 miles).

Temperatures in April range from a mean high of 85 to a mean low of 70
and will generally increase in May to a mean high and low of 90 and
75 respectively.

VISIBILITY

Morning fog in mountain valleys along the northeast coast and near
major lowland rivers occasionally restricts visibility to less than
3 miles during morning hours.

1. General. The area is located approximately seven (7) miles south of
Quang Tri City. Foothills, hills, and low mountains constitute its
topography.

SECRET

2. Relief. The foothills extend inland from National Route #1, for an average distance of 4 miles, characterized by mild slopes and low rolling hills forming numerous complex compartments. Ground elevation averages from sea level at Highway 1 to 50 meters at the base of the foothills. The transition to hills is moderate. Ridgelines of the mountains generally lie on a W - NE axis. Progressing toward the SW, terrain becomes increasingly dissected and rough. Small intermittent and perennial streams abound in narrow valleys and ravines.

3. Drainage. The drainage network features 3 river systems flowing northeast. These rivers which divide the area are

- a. SONG TRACH HAN (Quang Tri River)
- b. SONG NHUNG
- c. SON THAC MA (Rach My Chanh)

4. Vegetation.

a. The piedmont vegetation is characteristically paddyland with rolling hills covered by brush and shifting cultivation. Numerous open areas are caused by moderate erosion. Thickly vegetated brush and wet growth are often encountered in draws and the lower areas. Vegetation on the low ridges and hills varies from light brush to thickets with scattered clearings.

b. Progressing into the foothills, vegetation shows a moderate transition culminating in evergreen forest in the higher levels. Trees are commonly

SECRET

T

closely spaced and interspread with areas of dense brush. Canopy average 30 feet in height. Grassland is in evidence in the valleys and frequently ranges up to 10 feet in height. The areas contiguous to streams and rivers are more thickly vegetated and are predominately thickets of bamboo and bruhn

5. **Surface Material.** The soil is a fine grained clayey silt of shallow depth over a base of shale, sandstone, and conglomerate limestone. It is commonly firm, but briefly miry following rains.

6. **Cover and Concealment.**

a. Some cover from direct fire weapon is obtained from the low rolling hills. However, the NE - SW axis of the predominate ridgeline and the relatively few significant land forms along avenues of approach cause cover from direct fire weapons to be considered poor to fair throughout most of the area.

b. Concealment is limited by low brush in the piedmont and rated as poor for troops and vehicles. Progressing into the higher areas concealment of troops is considered good and is afforded by higher grasslands and more abundant vegetation.

7. **Observation and Fields of Fire.**

a. The piedmont offers excellent observation and fields of fire occasionally restricted by thicket of low brush. The foothills afford

good short range observation restricted only in areas of elephant grass and brush. Long range observation is generally poor due to the thickly forested terrain.

b. Fields of fire for indirect fire weapons are excellent throughout the lowlands and generally good in the foothills. The primary restriction is for short range indirect fire weapons to attain mask clearance in the canopy.

6. Obstacles.

a. Low areas of cultivation and wetlands will restrict cross country movement of vehicles to ridgelines, but fair to good movement can be obtained by troops on foot. In the higher areas, thick forestation, severe dissection of terrain, on moderate slopes will negate vehicular traffic and appreciably slow and canalize troop movements.

b. The extensive drainage network and river system throughout the area will hinder W - SE lateral routes of communication.

7. Avenues of Approach.

a. The area contains numerous secondary roads, cart tracks, and foot trails throughout the foothills. Those features afford good mobility throughout a sector but are compartmentalized by rivers which necessitate access to Highway I when moving from one sector to another.

b. Light duty and unimproved road networks normally run inland from National Highway 1. These roads transit the populated areas bordering the river networks and generally terminate approximately three (3) miles inland of Highway 1.

e. Numerous foot trails enter the foothills running along a NE - SW axis. Sufficient information is not available at this time to develop a complete foothill trail complex.

INTELLIGENCE ESTIMATE

Attack:

The enemy may mount small scale local attacks against isolated small units to (1) inflict casualties and material damage, (2) to divert friendly troops from other tasks and, (3) to draw friendly reinforcements into ambushes, or, large scale attacks are likely when the VC/NVA cannot choose the time and place after thorough preparation.

Defend:

Although there is a remote chance that the enemy might be able to preserve selected vital installations by a successful defense, friendly firepower and the cost in enemy manpower would likely be judged prohibitive by NVA leaders. Most likely he will not defend for any appreciable length of time, except for instances in which he tactically has no choice or perhaps must protect important personages trapped by the situation.

Reinforce:

Although capable of reinforcing to attack or defend, the probability of his adopting this course of action is the same as the probability of

attacking or defending.

Delay/Withdraw

By withdrawing, the enemy runs the risk of losing his stores, or at least a portion thereof. However, his caches are probably hidden well enough to cause him to estimate that the mount discovered by friendly forces would be insufficient to justify the expenditure of the assets required to attack or defend. Withdrawal has been a successful course of action in the past in avoiding undesired contacts and in preserving his forces. His screening forces have been successful in delaying friendly forces while key command cadre and HQ personnel

ENEMY CAPABILITY : BASE AREA 101

Upon friendly entry, the enemy has the capability of attacking immediately at any point that he may choose with an infantry regiment supported by light artillery and mortars, with another 2-4 battalion in reserve.

The enemy has the capability of defending any point within the area with approximately 2 regiments supported by light artillery and mortar fire.

The enemy has the capability of reinforcing his forces in Base Area 101 within one day from the northwest with approximately 2 battalions or from the southeast with approximately 1 battalion.

The enemy has the capability of withdrawing in force by using small elements to engage in delaying and deceiving tactics.

Page of pages

Discussion:

The enemy's initial course of action will depend in part on the degree of surprise that friendly force attain. If he is alerted to the impending operation by such indicators as increased recon aircraft (AO's and APD's), increased Arty/NGF H&I fires, increased B-52 strikes or friendly radio security violations, he will likely begin an immediate and orderly withdrawal. If re on, supporting arms prep fires, etc, begin shortly before the attack, the enemy will probably initiate a hasty withdrawal. If surprised, he will likely fight a stiff rearguard action initially, then evade when the tactical situation permits. In any event, his most likely course of action is to delay and withdraw.

Vulnerabilities:

The enemy's major vulnerability is estimated to be his large caches of food and munitions, which would be difficult to replace if captured or destroyed. Initially these stores can be located through m-hand information furnished by agents and later by POW's and ralliers. Although less likely, friendly search operations may also turn up caches. Friendly experience during Operation Medina was that caches were so well hidden that search forces could pass within several meters and not see them. Some caches pointed out by ralliers were only meters off trails, but, due to the density of the vegetation, were extremely difficult to find. This fact weighs

in favor of the enemy deciding to evade friendly forces and perhaps attempting to draw them away from such sensitive areas

Unless forced to do otherwise, the enemy habitually uses trails. By so doing, he will be tactically vulnerable to preplanned ambushes and H&I fires during his initial outward movement along trail nets leading away from friendly LZ's and columns.

Additionally, his logistic situation makes him vulnerable to shortages of food and water if the friendly operation is of a length that requires him to consume that which he can carry while evading. This is notably true in the case of food. At this point, enemy troops will probably be vulnerable to psychological operations, which may generate ralliers who could furnish information on enemy plans, caches etc.
